HARSHIT SINGH

DATA ANALYST | DATA SCIENCE | MACHINE LEARNING

Ghaziabad, Uttar Pradesh | +91 95609 47485 | harshit2003singh@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

B.Sc. (Hons.) Electronic Science graduate with internship and project experience in Python, SQL, Power BI and Machine Learning. Skilled in data cleaning, exploratory data analysis, dashboard development, feature engineering, NLP and model evaluation. Looking for an entry-level opportunity in Data Analytics, Data Science or Machine Learning.

TECHNICAL SKILLS

Programming: Python, SQL
Data Analysis: Pandas, NumPy, Data Cleaning, EDA, Data Preprocessing, Feature Engineering, Statistical Analysis
Machine Learning: Scikit-learn, Regression, Classification, Clustering, Model Evaluation, Cross Validation
NLP: Tokenization, Lemmatization, NER, Intent Classification, Sentiment Analysis
Visualization: Power BI, Tableau, Excel
Database & Tools: MySQL, Power Query, Git, GitHub, Jupyter Notebook, VS Code

EXPERIENCE

Machine Learning Intern | Remote | Jan 2025 – May 2025

- Developed a customer churn prediction model using Python and Scikit-learn and achieved approximately 80% accuracy.
- Performed data preprocessing, feature engineering and model evaluation using accuracy and ROC-AUC.
- Collaborated on dashboards to present data insights for stakeholders.

Data Analytics Intern | Ducat Institute, Noida | Sep 2024 – Feb 2025

- Built Power BI dashboards for retail sales analysis and KPI tracking.
- Used SQL and Power Query for data cleaning, transformation and reporting.
- Automated repetitive reporting workflows and reduced manual reporting time by 60%.

Data Science Intern | Codec Technologies Pvt. Ltd. | Remote | Aug 2025 – Oct 2025

- Conducted data preprocessing, visualization and machine learning tasks using Python and Pandas.
- Assisted with model evaluation, analytical insights and project documentation under guidance of the Program Manager.

PROJECTS

Customer Churn Prediction | Python, Scikit-learn

- Built a Logistic Regression model to identify customers likely to churn and performed data cleaning and feature engineering.
- Evaluated model performance using accuracy and ROC-AUC.

Netflix Content Analysis Dashboard | Power BI, SQL

- Built an interactive dashboard to analyze Netflix movies and TV shows by genre, country, release year and ratings.
- Used SQL and Power BI visualizations to identify content trends and present insights.

Chatbot Using Machine Learning | Python, NLP

- Developed an NLP-based chatbot using text preprocessing and intent classification to understand user queries.
- Tested different user inputs and improved intent-based responses.

EDUCATION

B.Sc. (Hons.) in Electronic Science

Bhaskaracharya College of Applied Sciences, University of Delhi | May 2021 – June 2025
